ABOUT ME

Frontend Developer with a Bachelor's degree in Information Technology and professional experience in web application development. Skilled in React.js, Next.js, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, Node.js, Express.js, Git, Docker, and Postman. Passionate about building responsive and user-friendly web applications using modern frontend technologies. Currently seeking a Junior Frontend Developer or React Developer opportunity in Germany. German language level: A2.

WORK EXPERIENCE

FRONTEND WEB DEVELOPER – NEUTRINOS – 19/09/2021 – 15/12/2025 – BANGALORE, INDIA

- Developed responsive and user-friendly web application interfaces based on wireframes, functional specifications, and business requirements.
- Implemented dynamic UI components and data-binding functionality using Angular, React.js, JavaScript, Bootstrap, HTML, and CSS to enhance user experience and application performance.
- Integrated RESTful APIs and backend services to enable seamless data exchange and application functionality.
- Participated in code reviews, Software Integration Testing (SIT), and User Acceptance Testing (UAT) to ensure code quality, application stability, and compliance with project requirements.
- Developed and maintained frontend features using Angular, React.js, HTML, CSS, JavaScript, and Neutrinos Studio.
- Performed API testing, validation, and troubleshooting using Postman to support application integration and debugging activities.
- Collaborated with cross-functional teams using Bitbucket for version control and source code management.
- Utilized Azure DevOps for task tracking, project collaboration, sprint planning, and software development lifecycle management.

SKILLS

React/Next.js | Web Technologies (HTML5, CSS3, Bootstrap, Angular) | Tailwind (some knowledge) | Git/Github, Docker, Gitlab | Experience in using Postman tools for API testing. | Ticketing platforms (Jira) | JavaScript | node JS | Responsive Webdesign

EDUCATION AND TRAINING

01/07/2014 – 03/07/2018 Islampur, India
BACHELORE OF TECHNOLOGY RIT , Islampur , Maharashtra , India

PROJECTS

10/01/2023 – 14/08/2025
Woligo phase 1 & 2

Developed and maintained a web-based insurance policy quotation application for the US insurance market. The platform collected behavioral, financial, and demographic information from customers to generate personalized insurance policy recommendations through an automated Product Recommendation Engine. Built using the Neutrinos low-code development platform, the application streamlined the insurance quote generation process and improved the customer onboarding experience.

Role
• Frontend Developer

Technologies and Tools
• JavaScript, React, Next.js, Tailwind CSS, REST APIs, PostgreSQL, Postman Client, Bit Bucket

Horizon-Bluesky

Developed and maintained a web-based insurance policy management application for the South African insurance market. The platform enabled customers and agents to create, manage, and process insurance policies across multiple insurance products and brands. Developed with Visual Studio Code, the application provided a scalable and user-friendly solution for insurance policy creation, policy management, and customer data processing across multiple insurance products.

- Role
 - Frontend Developer
- Technologies and Tools
 - JavaScript, React, Next.js,Tailwind CSS, REST APIs, PostgreSQL, Postman Client, Bit Bucket, VS Code
